SHEDS & WORKSHOPS

5-step guide to choosing your shed.

Deciding which shed is right can be tricky, so we've made the process as simple as possible with our 5-step guide.

1 Choose your size

Whether you're after something compact for tools or something spacious for larger equipment, our shed range offers a practical solution whatever size of space you have.

Small and compact shed perfect for neatly storing garden tools.

Mid-size shed suitable for large equipment like lawnmowers and bikes.

Large, spacious shed ideal for storage or as a functional workshop.

All of our shed descriptions are quoted with the longest length first.

2 Choose your style

We offer 3 styles of shed:

APEX

PENT

REVERSE APEX

3 Choose your construction

We offer 3 styles of cladding:

OVERLAP

Rough-sawn boards overlap to ensure water run-off.

SHIPLAP TONGUE & GROOVE

Interlocking Tongue & Groove boards with a shiplap profile for water run-off.

TONGUE & GROOVE

Tight-fitting Tongue & Groove boards for wind and rain protection.

4 Prepare your base

We recommend you prepare your base before installation in 1 of 3 ways:

CONCRETE SLABS

Slabs neatly laid with minimal gaps on a dressing of sharp sand and hardcore.

CONCRETE

Solid concrete base will minimise movement of sub-soil ensuring longevity.

SHED BASE

A timber frame.
